FUSION 360™

Understand Fusion 360

This course is to train Engineers with the knowledge of 3D Modelling, and how it can be combined with 3D Printing to print out 3D parts for practical use. Learners will learn more about modelling and printing and how it can expand their careers and their current scope and capabilities

Course Overview:

- Introduction to Fusion360
- Sketching of Models
- CAD Modelling
- Additional 3D Modelling Tools
- Preparing Drawings
- File Conversions and incorporation with 3D printing

Our class focuses much on hands-on, so participants will understand the mechanics and the concepts that 3D printing brings along with it.

Participants will be able to bring back their own 3D Printed model that was created in class.

Is there a minimum age?

Yes, we recommend our students to be at least 13 years and older

COURSE FEES

\$400.00 nett

DURATION

Weekday class - 9AM to 5PM
Weekend class - 9AM to 5PM

LOCATION

Learners Hub Training Centre
76 Playfair Road,
LHK2 Building, Lobby 1, #04-01
Singapore 367996
(Beside Tai Seng MRT)
