# LEARNERS HUB PTE LTD
(UEN: 200209661G)

HANDS ON IN 3D MODELLING, SCANNING AND PRINTING FOR BEGINNERS

Understand 3D Modelling

Learners Hub Pte Ltd makes 3D printing fun and accessible by offering a basic course suitable for beginners of any age and aptitude. Learn how to operate your very own desktop factory and we will walk you through the essentials that will act as a stepping stone to advanced courses in 3D printing.

3D PRINTING: An exciting, innovative technology that has stormed to the forefront in recent years, revolutionizing the design and manufacturing industries. 3D modelling and printing is now an indispensable skill in the contemporary workplace.

Participants will be able to bring back their own 3D printed model that was created in class.

Course Overview:
- 3D Printing Technologies
- 3D Printing Applications
- Hands-on 3D Modelling Software Skills
- Hands-on 3D Model Slicing and Exporting
- Hands-on 3D Scanner Operation and Applications
- Hands-on 3D Printer Functions & Operation
- Printed 3D Model Post-Processing
